Exposure controls	
Respiratory	If workers are exposed to concentrations above the exposure limit they must
	use the appropriate, certified respirators.
Eyes	Wear safety glasses with side shields to protect the eyes. An eye wash
	station is suggested as a good workplace practice.
Skin	Avoid skin contact. Protective gloves recommended.
Engineering	Provide adequate ventilation. Where reasonably practicable this should be
Controls	achieved by the use of local exhaust ventilation and good general extraction.
	If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.
Other Work Practices	Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
