SAFETY DATA SHEET

BRICORR 75

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

- Trade name BRICORR 75

1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses of the Substance / Mixture

- Iron sulphide dissolver

Uses advised against

- Aerosol

<u>Remarks</u>

- For professional and industrial installation and use only.

1.3 Details of the supplier of the safety data sheet

Distributed By

Silver Fern Chemical, Inc. 2226 Queen Anne Avenue North Seattle WA 98109, USA Customer Service: 1-866-282-3384; info@silverfernchemical.com

1.4 Emergency telephone

Infotrac : 800-535-5053 Outside USA & Canada: 352-323-3500

SECTION 2: Hazards identification

Although OSHA has not adopted the environmental portion of the GHS regulations, this document may include information on environmental effects.

2.1 Classification of the substance or mixture

HCS 2012 (29 CFR 1910.1200)

Acute toxicity, Category 4 Acute toxicity, Category 3 Serious eye damage, Category 1 Skin sensitization, Category 1 Reproductive toxicity, Category 2 H302: Harmful if swallowed.

H331: Toxic if inhaled.

H318: Causes serious eye damage.

H317: May cause an allergic skin reaction.

H361: Suspected of damaging fertility or the unborn child.

PRCO90020937 Version : 1.06 / US (Z8)

Signal Word

- Danger

Hazard Statements

- H302 - H317

H318

_

- Harmful if swallowed. May cause an allergic skin reaction.
- Causes serious eye damage.
- Toxic if inhaled.
- H331
- H361

Precautionary Statements

Precautionary St	atements	
Prevention		
- P201		Obtain special instructions before use.
- P202		Do not handle until all safety precautions have been read and understood.
- P261		Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray.
- P264		Wash skin thoroughly after handling.
- P270		Do not eat, drink or smoke when using this product.
- P271		Use only outdoors or in a well-ventilated area.
- P272		Contaminated work clothing must not be allowed out of the workplace.
- P280		Wear protective gloves/ protective clothing/ eye protection/ face protection.
<u>Response</u>		
- P301 + P312	2 + P330	IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.
- P302 + P352	2	IF ON SKIN: Wash with plenty of soap and water.
- P304 + P340) + P311	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor.
- P305 + P35	1 + P338 + P310	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.
- P308 + P313	3	IF exposed or concerned: Get medical advice/ attention.
- P333 + P313	3	If skin irritation or rash occurs: Get medical advice/ attention.
- P363		Wash contaminated clothing before reuse.
<u>Storage</u>		
- P403 + P233	3	Store in a well-ventilated place. Keep container tightly closed.
- P405		Store locked up.
Disposal		
- P501		Dispose of contents/ container to an approved waste disposal plant.

Suspected of damaging fertility or the unborn child.

2.3 Other hazards which do not result in classification

- H400: Very toxic to aquatic life.
- H411: Toxic to aquatic life with long lasting effects.
- Possible damage to liver following repeated or prolonged exposure by ingestion.

SECTION 3: Composition/information on ingredients

3.1 Substance

PRC090020937 Version : 1.06 / US (Z8)

- Not applicable, this product is a mixture.

3.2 Mixture

- Chemical nature

TETRAKIS(HYDROXYMETHYL)PHOSPHONIUM SULFATE Aqueous solution

Hazardous Ingredients and Impurities

Ē	Chemical name	Identification number CAS-No.	Concentration [%]
	Phosphonium, tetrakis(hydroxymethyl)-, sulfate (2:1)	55566-30-8	75

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice

- Plan first aid action before beginning work with this product.
- First responder needs to protect himself.
- In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
- Show this material safety data sheet to the doctor in attendance.
- Place affected apparel in a sealed bag for subsequent decontamination.

In case of inhalation

- Move to fresh air.
- Keep at rest.
- Consult a physician.

In case of skin contact

- Take off contaminated clothing and shoes immediately.
- Wash off with soap and plenty of water.
- Wash immediately and thoroughly for a prolonged period (at least 15 minutes).
- Get medical attention if irritation develops and persists.

In case of eye contact

- Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.
- Get immediate medical advice/ attention.

In case of ingestion

- Do not induce vomiting without medical advice.
- If victim is conscious:
- Rinse mouth with water.
- Keep at rest.
- Do not leave the victim unattended.
- Vomiting may occur spontaneously
- Risk of product entering the lungs on vomiting after ingestion.
- Lay victim on side.
- Seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms

- Lachrymation
- Ingestion may provoke the following symptoms:
- Nausea
- Liver disorders

PRCO90020937

Version : 1.06 / US (Z8)

Effects

- Skin contact may aggravate existing skin disease

4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician

- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.
- Treat symptomatically.

- There is no specific antidote available.

SECTION 5: Firefighting measures	
Flash point	Not applicable (aqueous liquid).
	Flammability class: Will burn
Autoignition temperature	No data available
Flammability / Explosive limit	No data available

5.1 Extinguishing media

Suitable extinguishing media

- All extinguishing agents can be used.
 - Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

5.2 Special hazards arising from the substance or mixture

- Harmful or toxic vapors are released.
- Do not allow run-off from fire fighting to enter drains or water courses.
- Container may explode if heated.
- Hazardous decomposition products formed under fire conditions.
- Phosphorus trihydride (phosphine)
- Carbon oxides
- Sulfur oxides
- Oxides of phosphorus

5.3 Advice for firefighters

Special protective equipment for fire-fighters

- Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full protective clothing.
- In the event of fire, wear self-contained breathing apparatus.
- Personal protective equipment comprising: suitable protective gloves, safety goggles and protective clothing
- Wear full protective clothing and self-contained breathing apparatus.
- Personal protective equipment comprising: suitable protective gloves, safety goggles and protective clothing

Further information

- Collect contaminated fire extinguishing water separately. This must not be discharged into drains.
- Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

PRCO90020937 Version : 1.06 / US (Z8)

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

- Do not breathe spray.
- Avoid contact with the skin and the eyes.
- Use personal protective equipment.
- Ensure adequate ventilation.
- Evacuate personnel to safe areas.
- Only qualified personnel equipped with suitable protective equipment may intervene.

6.2 Environmental precautions

- Do not allow uncontrolled discharge of product into the environment.
- Contain the spilled material by diking.
- Do not let product enter drains.
- Do not flush into surface water or sanitary sewer system.
- Spills may be reportable to the National Response Center (800-424-8802) and to state and/or local agencies

6.3 Methods and materials for containment and cleaning up

Recovery

- Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).
- Keep in suitable, closed containers for disposal.
- Never return spills in original containers for re-use.

Decontamination / cleaning

- Wash nonrecoverable remainder with large amounts of water.
- Recover the cleaning water for subsequent disposal.
- Decontaminate tools, equipment and personal protective equipment in a segregated area.

Disposal

- Dispose of contents/ container to an approved waste disposal plant.
- Dispose of in accordance with local regulations.

6.4 Reference to other sections

- For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

- Provide adequate ventilation.
- This product must only be handled by skilled operators.
- Avoid exposure obtain special instructions before use.
- Use only with adequate ventilation/personal protection.
- For personal protection see section 8.
- Avoid the formation or spread of mists in the atmosphere.
- Avoid formation of aerosol.
- Avoid inhalation, ingestion and contact with skin and eyes.
- Do not mix with incompatible materials (See list, section 10).

PRC090020937 Version : 1.06 / US (Z8)

Hygiene measures

- Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this materials:
- 1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
- 2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
- 3) Wash exposed skin promptly to remove accidental splashes or contact with material.

7.2 Conditions for safe storage, including any incompatibilities

Technical measures/Storage conditions

- Prevent unauthorized access.
- Keep container tightly closed in a dry and well-ventilated place.
- Containers which are opened must be carefully resealed and kept upright to prevent leakage.
- Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems.
- Keep away from open flames, hot surfaces and sources of ignition.
- Keep away from incompatible materials to be indicated by the manufacturer
- Keep container tightly closed.
- Keep away from: Strong acids, Strong bases, Strong oxidizing agents, Strong reducing agents.

Packaging material

Suitable material

- Polyethylene or polypropylene drums.
- high density
- Stainless steel

Unsuitable material

- Ordinary steel.

Requirements for storage rooms and vessels

- No decomposition if stored and applied as directed.

7.3 Specific end use(s)

- no data available

SECTION 8: Exposure controls/personal protection

Introductory Remarks: These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

8.1 Control parameters

Components with workplace occupational exposure limits

Components	Value type	Value	Basis
Phosphonium, tetrakis(hydroxymethyl)-, sulfate (2:1)	TWA	2 mg/m3	American Conference of Governmental Industrial Hygienists
Phosphonium, tetrakis(hydroxymethyl)-, sulfate (2:1)	TWA	0.43 mg/m3	Solvay Acceptable Exposure Limit

Version : 1.06 / US (Z8)

8.2 Exposure controls

Control measures

Engineering measures

- Where engineering controls are indicated by use conditions or a potential for excessive exposure exists, the following traditional exposure control techniques may be used to effectively minimize employee exposures :
- Avoid splashes.
- Effective exhaust ventilation system
- Facilities and equipment easily cleanable.
- Separate rooms are required for washing, showering and changing clothes.

Individual protection measures

Respiratory protection

- When respirators are required, select NIOSH/MSHA approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations.
- Use a respirator with an approved filter if a risk assessment indicates this is necessary.

Hand protection

- Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the
 gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of
 cuts, abrasion, and the contact time.
- Gloves must be inspected prior to use.
- Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection

- Eye and face protection requirements will vary dependent upon work environment conditions and material handling practices. Appropriate ANSI Z87 approved equipment should be selected for the particular use intended for this material.
- Eye contact should be prevented through the use of:
- Tightly fitting safety goggles
- In case of contact through splashing:
- Wear face-shield and protective suit.

Skin and body protection

- Wear suitable protective clothing, gloves and eye/face protection.
- Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.
- Remove and wash contaminated apparel.

Hygiene measures

- Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this materials:
- 1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
- 2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
- 3) Wash exposed skin promptly to remove accidental splashes or contact with material.

Protective measures

- Always have on hand a first-aid kit, together with proper instructions.
- Ensure that eye flushing systems and safety showers are located close to the working place.

PRC090020937 Version : 1.06 / US (Z8)

- The protective equipment must be selected in accordance with current local standards and in cooperation with the supplier of the protective equipment.
- Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

SECTION 9: Physical and chemical properties

Physical and Chemical properties here represent typical properties of this product. Contact the business area using the Product information phone number in Section 1 for its exact specifications.

9.1 Information on basic physical and chemical properties

<u>Appearance</u>	<u>Form</u> :	Aqueous solution
	Physical state:	liquid
	<u>Color</u> :	colorless to pale yellow
<u>Odor</u>	characteristic	
Odor Threshold	No data availabl	e
Molecular weight	406.3 g/mol	
<u>рН</u>	3.0 - 6.0 (68 °F	(20 °C))
Melting point/freezing point	Freezing point: <	< -4 °F (< -20 °C)
Initial boiling point and boiling range	Boiling point/boil	<u>ing range</u> : 227.3 °F (108.5 °C) (759.81 mmHg (1,013 hPa))
Flash point	Not applicable (a	aqueous liquid).
	Flammability clas	ss: Will burn
Evaporation rate (Butylacetate = 1)	No data availabl	e
Flammability (liquids)	The product is n	ot flammable.
Flammability / Explosive limit	No data availabl	e
Autoignition temperature	No data availabl	e
Vapor pressure		Hg (< 0.0000026 hPa) (77 °F (25 °C)) based on the dry product.
Vapor density	No data availabl	e
Density	1.37 - 1.41 g/cm	3(68 °F (20 °C))
Relative density	1.39(68 °F (20	°C))
<u>Solubility</u>	Water solubility: completely misci	ible
	<u>Solubility in othe</u> Methanol : solub	

PRCO90020937 Version : 1.06 / US (Z8)

Revision Date 11/12/2019

	N-Methylpyrrolidone : soluble	
	Isopropanol : soluble	
	Acetone : insoluble	
	Tetrahydrofuran : insoluble	
Partition coefficient: n-octanol/water	log Pow: -9.8 Structure-activity relationship (SAR), estimated	
Decomposition temperature	> 320 °F (160 °C)	
<u>Viscosity</u>	Viscosity, kinematic : 32 mm2/s (77 °F (25 °C))	
Explosive properties	No data available	
Oxidizing properties	Not considered as oxidizing.	
9.2 Other information		
Non Volatiles by Weight	ca. 75 %	

SECTION 10: Stability and reactivity

10.1 Reactivity

- Stable at normal ambient temperature and pressure.

10.2 Chemical stability

- Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions

- No decomposition if used as directed.

polymerization

- Hazardous polymerization does not occur.

10.4 Conditions to avoid

- No dangerous reaction known under conditions of normal use.
- > 160°C
- Decomposes on heating.

10.5 Incompatible materials

- Strong bases
- Strong reducing agents.
- Strong acids
- Strong oxidizing agents
- Ammonia
- Ammonium salts
- Amines

10.6 Hazardous decomposition products

PRC090020937 Version : 1.06 / US (Z8)

Hazardous decomposition products

- Oxides of phosphorus
- Sulfur oxides
- Hydrogen
- Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke).
- Phosphine

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute oral toxicity	LD50: 575 mg/kg -Rat , for males and females Harmful if swallowed. Unpublished internal reports
Acute inhalation toxicity	LC50 - 4 h(dust/mist) 0.591 mg/l -Rat , for males and females Toxic by inhalation. Published data
Acute dermal toxicity	LD50 >2,000 mg/kg -Rat , for males and females Not classified as harmful by contact with skin Unpublished internal reports
Acute toxicity (other routes of administration)	No data available
Skin corrosion/irritation	Rabbit No skin irritation Method: OECD Test Guideline 404 Unpublished internal reports
Serious eye damage/eye irritation	Risk of serious damage to eyes. Method: OECD Test Guideline 405 Extremely irritating to rabbits on ocular application. Unpublished internal reports
Respiratory or skin sensitization	Magnusson and Kligman method - Guinea pig May cause sensitization by skin contact. Unpublished internal reports
Mutagenicity	
Genotoxicity in vitro	Mutagenicity (Salmonella typhimurium - reverse mutation assay) with and without metabolic activation negative Unpublished internal reports
	Mutagenicity (in vitro mammalian cytogenetic test) Strain: CHO with and without metabolic activation positive Unpublished internal reports

SECTION 12: Ecological information

12.1 Toxicity

Aquatic Compartment	
Acute toxicity to fish	LC50 - 96 h : 119 mg/l - Oncorhynchus mykiss (rainbow trout) Unpublished internal reports
	LC50 - 96 h : 93 mg/l - Lepomis macrochirus (Bluegill sunfish) Unpublished internal reports
Acute toxicity to daphnia and other aquatic invertebrates	EC50 - 48 h: 19.4 mg/l -Daphnia magna (Water flea) Unpublished internal reports
Toxicity to aquatic plants	EC50 - 96 h: 0.2 mg/l - Pseudokirchneriella subcapitata (microalgae) Unpublished internal reports
Toxicity to microorganisms	EC50 - 3 h : 24 mg/l - activated sludge Unpublished internal reports
Chronic toxicity to fish	NOEC: 0.83 mg/l - 32 d - Pimephales promelas (fathead minnow) flow-through test Method: OECD Test Guideline 210 Harmful to fish with long lasting effects. Unpublished internal reports
Chronic toxicity to daphnia and other aquatic invertebrates	NOEC: 0.032 mg/l - 21 d - Daphnia magna (Water flea) Reproduction Test Method: OECD Test Guideline 202 Unpublished internal reports
12.2 Persistence and degradability	
Abiotic degradation	
Stability in water	DT50: Half-life value: 131 d (25 °C) anaerobic pH: 5.0 Method: according to a standardized method Unpublished internal reports DT50: Half-life value: 72 d (25 °C)
	anaerobic pH: 7.0

	Method: according to a standardized method Unpublished internal reports
	DT50: Half-life value: 7 d (25 °C) anaerobic pH: 9.0 Method: according to a standardized method Unpublished internal reports
Other Physicochemical reactions	Product is easily oxidizable in aqueous media in dilute solutions
Physical- and photo-chemical elimination	No data available
Biodegradation	
Biodegradability	Ultimate aerobic biodegradability Method: Simulation study 70 % - 21 Days Readily biodegradable. US EPA FIFRA, Subdivision N, § 162-4
	anaerobic Method: Simulation study 60 % - 30 Days US EPA FIFRA, Subdivision N, § 162-3
Degradability assessment	The product is considered to be rapidly degradable in the environment
12.3 Bioaccumulative potential	
Partition coefficient: n- octanol/water	Not potentially bioaccumulable Structure-activity relationship (SAR)
Bioconcentration factor (BCF)	No data available
12.4 Mobility in soil	
Adsorption potential (Koc)	Log Koc: 2.2 Moderately mobile in soils Unpublished internal reports
Known distribution to environmental compartments	Ultimate destination of the product: Water
12.5 Results of PBT and vPvB assessment	This mixture contains no substance considered to be persistent, bioaccumulating and toxic (PBT). This mixture contains no substance considered to be very persistent and very bioaccumulating (vPvB).
12.6 Other adverse effects	
Ecotoxicity assessment	
Short-term (acute) aquatic hazard	According to the available data on the components Very toxic to aquatic life. According to the classification criteria for mixtures.

PRC090020937 Version : 1.06 / US (Z8)

Long-term (chronic) aquatic hazard According to the available data on the components Toxic to aquatic life with long lasting effects. According to the classification criteria for mixtures.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product Disposal

Chemical additions, processing or otherwise altering this material may make the waste management information
presented in this SDS incomplete, inaccurate or otherwise inappropriate. Please be advised that state and local
requirements for waste disposal may be more restrictive or otherwise different from federal laws and regulations. Consult
state and local regulations regarding the proper disposal of this material.

Waste Code

- Environmental Protection Agency
- Hazardous Waste NO

Advice on cleaning and disposal of packaging

- Take preliminary precautions based on the dangerous properties of the product.
- Empty the packaging completely prior to disposal.
- Empty containers should be taken to an approved waste handling site for recycling or disposal.
- The user's attention is drawn to the possible existence of local regulations regarding disposal.

SECTION 14: Transport information

Transportation status: IMPORTANT! Statements below provide additional data on listed transport classification. The listed Transportation Classification does not address regulatory variations due to changes in package size, mode of shipment or other regulatory descriptors.

DOT

14.1 UN number	UN 2810
14.2 Proper shipping name	TOXIC, LIQUIDS, ORGANIC, N.O.S. (Tetrakis(hydroxymethyl) phosphonium sulphate)
14.3 Transport hazard class Label(s)	6.1 6.1
14.4 Packing group Packing group ERG No	III 153
14.5 Environmental hazards Marine pollutant	YES Marine Pollutant (Tetrakis(hydroxymethyl) phosphonium sulphate)

<u>TDG</u>

14.1 UN number

UN 2810

 14.2 Proper shipping name
 TOXIC LIQUID, ORGANIC, N.O.S. (Tetrakis(hydroxymethyl) phosphonium

IMDG Code segregation group	Not Relevant	
14.3 Transport hazard class Label(s)	6.1 6.1	
14.4 Packing group Packing group	III	
14.5 Environmental hazards Marine pollutant	YES	
14.6 Special precautions for user EmS	F-A , S-A	

For personal protection see section 8.

14.7 Transport in bulk vessels according to IMO instruments No data available

<u>IATA</u>

14.1 UN number	UN 2810
14.2 Proper shipping name	TOXIC LIQUID, ORGANIC, N.O.S. (Tetrakis(hydroxymethyl) phosphonium sulphate)
14.3 Transport hazard class Label(s):	6.1 6.1
14.4 Packing group Packing group	III
Packing instruction (cargo aircraft) Max net qty / pkg Packing instruction (passenger aircraft) Max net qty / pkg	663 220.00 L 655 60.00 L
14.5 Environmental hazards	YES
14.6 Special precautions for user	

For personal protection see section 8.

Note: The above regulatory prescriptions are those valid on the date of publication of this sheet. Given the possible evolution of transportation regulations for hazardous materials, it would be advisable to check their validity with your sales office.

SECTION 15: Regulatory information

15.1 Notification status

Inventory Information	Status
United States TSCA Inventory	- All substances listed as active on the TSCA inventory
Canadian Domestic Substances List (DSL)	- Listed on Inventory
Australia Inventory of Chemical Substances (AICS)	- Listed on Inventory
Japan. CSCL - Inventory of Existing and New Chemical Substances	- Listed on Inventory
Korea. Korean Existing Chemicals Inventory (KECI)	- Listed on Inventory
China. Inventory of Existing Chemical Substances in China (IECSC)	- Listed on Inventory
Philippines Inventory of Chemicals and Chemical Substances (PICCS)	- Listed on Inventory
Taiwan Chemical Substance Inventory (TCSI)	- Listed on Inventory
New Zealand. Inventory of Chemical Substances	- All components are listed on the NZIOC inventory. The HSNO status of the product has not been assessed.
EU. European Registration, Evaluation, Authorisation and Restriction of Chemical (REACH)	 When purchased from a Solvay legal entity based in the EEA ("European Economic Area"), this product is compliant with the registration provisions

of the REACH Regulation (EC) No. 1907/2006 as all its components are either excluded, exempt, and/or registered. When purchased from a legal entity outside of the EEA, please contact your local representative for additional information.

15.2 Federal Regulations

US. EPA EPCRA SARA Title III

SARA HAZARD DESIGNATION SECTIONS 311/312 (40 CFR 370)

Acute toxicity (any route of exposure)	Yes
Serious eye damage or eye irritation	Yes
Respiratory or skin sensitization	Yes
Reproductive toxicity	Yes

The categories not mentioned are not relevant for the product.

Section 313 Toxic Chemicals (40 CFR 372.65)

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Section 302 Emergency Planning Extremely Hazardous Substance Threshold Planning Quantity (40 CFR 355) This material does not contain any components with a section 302 EHS TPQ.

Section 302 Emergency Planning Extremely Hazardous Substance Reportable Quantity (40 CFR 355)

Components	CAS-No.	Reportable quantity
Formaldehyde	50-00-0	100 lb

Section 304 Emergency Release Notification Reportable Quantity (40 CFR 355)

Components	CAS-No.	Reportable quantity
Formaldehyde	50-00-0	100 lb

US. EPA CERCLA Hazardous Substances and Reportable Quantities (40 CFR 302.4)

Components	CAS-No.	Reportable quantity
Formaldehyde	50-00-0	100 lb

15.3 State Regulations

US. California Safe Drinking Water & Toxic Enforcement Act (Proposition 65)

This product can expose you to chemicals including Formaldehyde (CAS # 50-00-0), which is/are known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

SECTION 16: Other information

NFPA (National Fire Protection Association) - Classification

Health	3 serious
Flammability	1 slight
Instability or Reactivity	0 minimal

HMIS (Hazardous Materials Identification System (Paint & Coating)) - Classification

Health Flammability Reactivity	3 serious 1 slight 0 minimal Determined by Lleer, dependent on local conditions
PPE	Determined by User; dependent on local conditions

Further information

- Product evaluated under the US GHS format.

Date Prepared: 11/12/2019

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information, and belief at the date of its publication. Such information is only given as a guidance to help the user handle, use, process, store, transport, dispose, and release the product in satisfactory safety conditions and is not to be considered as a warranty or quality specification. It should be used in conjunction with technical sheets but do not replace them. Thus, the information only relates to the designated specific product and may not be applicable if such product is used in combination with other materials or in any other manufacturing process, unless otherwise specifically indicated. It does not release the user from ensuring he is in conformity with all regulations linked to its activity.
