

# SILVER FERN CHEMICAL, INC.

## Safety Data Sheet

### Dimethyl Adipate

## Section 1. Identification

<b>Chemical name</b>	: Dimethyl Adipate
<b>Other means of identification</b>	: Hexanedioic acid, 1,6-dimethyl ester; Hexanedioic acid, dimethyl ester; Adipic acid, dimethyl ester
<b>Product type</b>	: Liquid.
<b>Intended use</b>	: Not available.

<b>Supplier's details</b>	: <b>Silver Fern Chemical, Inc.</b> 2226 Queen Anne Avenue North Seattle WA 98109, USA Phone: 1-866-282-3384 Info@silverfernchemical.com
---------------------------	--

<b>Emergency telephone number (with hours of operation)</b>	: <b>24 Hour Emergency Contact</b> Infotrac 1-800-535-5053 (USA & Canada) Outside USA & Canada 1-352-323-3500
---	---

## Section 2. Hazards identification

<b>OSHA/HCS status</b>	: This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
<b>Classification of the substance or mixture</b>	: This product is not classified as hazardous by OSHA, WHMIS, or under the GHS or CLP systems.
<b>Hazards not otherwise classified</b>	: None known.

### GHS label elements

<b>Signal word</b>	: No signal word.
<b>Hazard statements</b>	: Harmful to aquatic life.
<b><u>Precautionary statements</u></b>	
<b>General</b>	: Do not handle until all safety precautions have been read and understood. Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
<b>Prevention</b>	: Wear protective gloves or clothing and eye or face protection. Wash hands thoroughly after handling. Avoid release to the environment.
<b>Response</b>	: <b>IF SWALLOWED:</b> Rinse mouth. <b>IF ON SKIN (or hair):</b> Wash with plenty of soap and water. <b>IF IN EYES:</b> Rinse cautiously with water for several minutes. <b>IF INHALED:</b> Remove person to fresh air and keep comfortable for breathing.
<b>Storage</b>	: Store in accordance with all local, regional, national and international regulations.
<b>Disposal</b>	: Dispose of contents and container in accordance with all local, regional, national and international regulations.

## Section 3. Composition/information on ingredients

<b>Substance/mixture</b>	: Substance
<b>Chemical name</b>	: dimethyl adipate
<b>CAS number</b>	: 627-93-0
<b>Other means of identification</b>	: Hexanedioic acid, 1,6-dimethyl ester; Hexanedioic acid, dimethyl ester; Adipic acid, dimethyl ester

Ingredient name	%	CAS number
dimethyl adipate	99-100	627-93-0
dimethyl glutarate	0 - 2	1119-40-0
dimethyl succinate	0 - 1	106-65-0

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

<b>Eye contact</b>	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
<b>Inhalation</b>	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
<b>Skin contact</b>	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
<b>Ingestion</b>	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

<b>Eye contact</b>	: May cause eye irritation.
<b>Inhalation</b>	: No known significant effects or critical hazards.
<b>Skin contact</b>	: No known significant effects or critical hazards.
<b>Ingestion</b>	: No known significant effects or critical hazards.

#### Over-exposure signs/symptoms

<b>Eye contact</b>	: redness
<b>Inhalation</b>	: No specific data.
<b>Skin contact</b>	: No specific data.
<b>Ingestion</b>	: No specific data.

### Indication of immediate medical attention and special treatment needed, if necessary

<b>Notes to physician</b>	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
<b>Specific treatments</b>	: No specific treatment.

## Section 4. First aid measures

**Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

### Extinguishing media

**Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media** : None known.

**Specific hazards arising from the chemical** : In a fire or if heated, a pressure increase will occur and the container may burst.

**Hazardous thermal decomposition products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide

**Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

**Remark** : No additional remark.

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

**For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods and materials for containment and cleaning up

**Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

**Large spill** : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

### Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8).
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

- Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

**Bulk** : Not available.

**Non-bulk** : Not available.

## Section 8. Exposure controls/personal protection

### Control parameters

#### Occupational exposure limits

Ingredient name	Exposure limits
dimethyl adipate	None.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## Section 8. Exposure controls/personal protection

- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 9. Physical and chemical properties

### Appearance

- Physical state** : Liquid.
- Color** : Colorless.
- Odor** : Sweet.
- Odor threshold** : Not available.
- pH** : 6.9
- Melting point** : 9°C (48.2°F)
- Boiling point** : 225°C (437°F)
- Flash point** : Closed cup: 124°C (255.2°F) [Pensky-Martens.]
- Evaporation rate** : Not available.
- Flammability (solid, gas)** : Not available.
- Lower and upper explosive (flammable) limits** : Not available.
- Vapor pressure** : 0.0013 kPa (0.01 mm Hg) [room temperature]
- Vapor density** : Not available.
- Density** : 1.06 g/cm<sup>3</sup> [20°C (68°F)]
- Solubility in water** : 25 to 30 g/l
- Partition coefficient (LogKow)** : 1.03
- Auto-ignition temperature** : 400°C (752°F)
- Decomposition temperature** : Not available.
- Viscosity** : Dynamic (room temperature): 3.03 mPa·s (3.03 cP)

## Section 10. Stability and reactivity

- Reactivity** : No specific test data related to reactivity available for this product or its ingredients.
- Chemical stability** : The product is stable.
- Possibility of hazardous reactions** : Under normal conditions of storage and use, hazardous reactions will not occur.
- Conditions to avoid** : No specific data.
- Incompatible materials** : No specific data.
- Hazardous decomposition products** : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
dimethyl adipate	LD50 Dermal LD50 Oral NOEL Inhalation Dusts and mists	Rabbit Rat Rat - Male, Female	>5000 mg/kg 11300 mg/kg 11 mg/l	- - 4 hours

#### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
dimethyl adipate	Eyes - Moderate irritant Skin - Edema	Rabbit Rabbit	- 0	0.1 Milliliters 72 hours	- -

#### Conclusion/Summary

**Skin** : Non-irritant to skin.

**Eyes** : Moderate irritant

#### Sensitization

Product/ingredient name	Route of exposure	Species	Result
dimethyl adipate	skin	Mouse	Not sensitizing

#### Mutagenicity

Product/ingredient name	Test	Experiment	Result
dimethyl adipate	-	Experiment: In vitro Subject: Bacteria	Negative
	474 Mammalian Erythrocyte Micronucleus Test	Experiment: In vivo Subject: Mammalian-Animal	Negative

#### Carcinogenicity

Not available.

#### Reproductive toxicity

Product/ingredient name	Maternal toxicity	Fertility	Development toxin	Species	Dose	Exposure
dimethyl adipate	Negative	Negative	Negative	Rat - Male, Female	Inhalation: 1000 mg/ m <sup>3</sup> Dusts and mists	-

#### Teratogenicity

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

## Section 11. Toxicological information

**Information on the likely routes of exposure** : Not available.

### Potential acute health effects

**Eye contact** : May cause eye irritation.  
**Inhalation** : No known significant effects or critical hazards.  
**Skin contact** : No known significant effects or critical hazards.  
**Ingestion** : No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact** : redness  
**Inhalation** : No specific data.  
**Skin contact** : No specific data.  
**Ingestion** : No specific data.

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Short term exposure

**Potential immediate effects** : Not available.  
**Potential delayed effects** : blurred or double vision

#### Long term exposure

**Potential immediate effects** : Not available.  
**Potential delayed effects** : blurred or double vision  
 Repeated or prolonged inhalation of vapors may lead to temporary blurred or double vision.

### Potential chronic health effects

Product/ingredient name	Result	Species	Dose	Exposure
dimethyl adipate	Sub-chronic NOEL Oral	Rat - Male, Female	3958 mg/kg	14 days
	Sub-acute NOEL Dermal	Rat - Male, Female	1000 mg/kg systemic toxicity	14 days; 6 hours per day
	Sub-chronic NOEL Inhalation Dusts and mists	Rat - Male	10 mg/m <sup>3</sup>	90 days
	Sub-chronic LOEL Inhalation Dusts and mists	Rat - Male	400 mg/m <sup>3</sup>	90 days

**Conclusion/Summary** : No known significant effects or critical hazards.  
**General** : No known significant effects or critical hazards.  
**Carcinogenicity** : No known significant effects or critical hazards.  
**Mutagenicity** : No known significant effects or critical hazards.  
**Teratogenicity** : No known significant effects or critical hazards.  
**Developmental effects** : No known significant effects or critical hazards.  
**Fertility effects** : No known significant effects or critical hazards.

### Numerical measures of toxicity

#### Acute toxicity estimates

Route	ATE value
Oral	11300 mg/kg

## Section 11. Toxicological information

**Interactive effects** : None known.

## Section 12. Ecological information

### Toxicity

Product/ingredient name	Result	Species	Exposure
dimethyl adipate	Acute EC50 >100 mg/l (growth rate)	Algae - Selenastrum capricornutum	72 hours
	Acute EC50 >100 mg/l (biomass)	Algae - Selenastrum capricornutum	72 hours
	Acute LC50 180 mg/l Fresh water	Daphnia	72 hours
	Acute LC50 18 to 24 ppm Fresh water	Fish - Pimephales promelas	72 hours
	Acute LOAEL 140 mg/l Fresh water	Daphnia	72 hours
	Acute NOEC 12.5 mg/l (biomass)	Algae - Selenastrum capricornutum	72 hours
	Acute NOEC 50 mg/l (growth rate)	Algae - Selenastrum capricornutum	72 hours
	Acute NOEC 120 mg/l Fresh water	Daphnia	72 hours

### Persistence and degradability

Product/ingredient name	Test	Result	Dose	Inoculum
dimethyl adipate	301A Ready Biodegradability - DOC Die-Away Test	70 % - Readily - 29 days	-	-

Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
dimethyl adipate	-	-	Readily

### Bioaccumulative potential

Product/ingredient name	Partition coefficient (LogKow)	BCF	Potential
dimethyl adipate	1.03	-	low

### Mobility in soil

**Soil/water partition coefficient (K<sub>oc</sub>)** : Not available.

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. For more detailed information, please refer to the regulation. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

**Packaging materials** : Not available.

## Section 14. Transport information

	Transport information
UN number	Not regulated.
UN proper shipping name	-
Transport hazard class(es)	-
Packing group	-
Environmental hazards	No.

**Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to IMO instruments** :

- Proper shipping name** : Not available.
- Ship type** : Not available.
- Pollution category** : Not available.

## Section 15. Regulatory information

**U.S. Federal regulations** : **TSCA 8(a) CDR Exempt/Partial exemption:** Not determined

**United States inventory (TSCA 8b)** : This material is listed or exempted.

**Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)** : Not listed

**Clean Air Act Section 602 Class I Substances** : Not listed

**Clean Air Act Section 602 Class II Substances** : Not listed

**DEA List I Chemicals (Precursor Chemicals)** : Not listed

**DEA List II Chemicals (Essential Chemicals)** : Not listed

### SARA 302/304

#### Composition/information on ingredients

No products were found.

**SARA 304 RQ** : Not applicable.

### SARA 311/312

## Section 15. Regulatory information

**Classification** : Not applicable.

**Composition/information on ingredients**

No products were found.

**State regulations**

**Massachusetts** : This material is not listed.

**New York** : This material is not listed.

**New Jersey** : This material is not listed.

**Pennsylvania** : This material is not listed.

**California Prop. 65** :  **WARNING:** This product can expose you to Methanol, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

Ingredient name	No significant risk level	Maximum acceptable dosage level
Methanol	-	Yes.

**International regulations**

**Canadian lists**

**CEPA Toxic substances** : This material is not listed.

**Canada inventory** : This material is listed or exempted.

**Chemical Weapon Convention List Schedules I, II & III Chemicals**

Not listed.

**Montreal Protocol**

Not listed.

**Stockholm Convention on Persistent Organic Pollutants**

Not listed.

**Rotterdam Convention on Prior Informed Consent (PIC)**

Not listed.

**UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

**Inventory list**

**Australia** :

**China** : This material is listed or exempted.

**Europe** : This material is listed or exempted.

**Japan** : **Japan inventory (ENCS):** This material is listed or exempted.  
**Japan inventory (ISHL):** This material is listed or exempted.

**Malaysia** : Not applicable.

**New Zealand** : This material is listed or exempted.

**Philippines** : This material is listed or exempted.

**Republic of Korea** : This material is listed or exempted.

**Taiwan** : This material is listed or exempted.

## Section 15. Regulatory information

Thailand	:	
Turkey	:	This material is listed or exempted.
Viet Nam	:	This material is listed or exempted.

## Section 16. Other information
